## EDUCATION

<b>NMAM INSTITUTE OF TECHNOLOGY</b>	(2018 - 2022)
Bachelor of Engineering (Computer Science)	CGPA - 7.96
<b>MAHESH PU COLLEGE</b>	(2018)
12th	Percentage - 80.5
<b>CANARA CBSE</b>	(2016)
10th	CGPA - 8.6

## TECHNICAL AND SOFT SKILLS

- Programming Languages:** Python, JavaScript, Java, C, C++
- Web Development:** HTML5, CSS3, Bootstrap, React.js, Node.js, Express.js, MongoDB, Django, WordPress, RESTful APIs, CRUD Operations, MVC Architecture, Authentication & Authorization , State Management Deployment & Hosting
- Full-Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- Tools:** Postman, Streamlit, Figma, Canva, VS Code, WebStorm, IntelliJ IDEA
- Deployment Platforms:** Netlify, PythonAnywhere, Render
- Soft Skills:** Problem-Solving, Effective Communication, Team Collaboration, Adaptability

## WORK EXPERIENCE

<b>Global Next Consulting India Private Limited</b> - MERN Stack Developer Intern	(08/2025 - 11/2025)
<ul style="list-style-type: none"><li>Developed "Global Connect" using the MERN Stack, implementing features like connection requests, real-time messaging, and profile management to facilitate professional networking and community interaction.</li><li>Built scalable full-stack applications using React, Node.js, and MongoDB, integrating RESTful APIs, JWT authentication, and efficient state management for secure and seamless performance.</li><li>Created a responsive Product Launch website with HTML and CSS, implementing smooth animations and modern UI principles to enhance visual appeal and user engagement.</li></ul>	
<b>Navikshaa Technologies</b> - MERN Stack Internship	(05/2025 - 08/2025)
<ul style="list-style-type: none"><li>Engineered a Lead Management System featuring role-based access (RBAC), automated lead assignment, and real-time notifications using React.</li><li>Developed responsive dashboards for Travel and E-commerce platforms using React, Tailwind CSS, to ensure seamless UI/UX.</li><li>Built a real-time chat application leveraging the MERN Stack (MongoDB, Express, React, Node) for low-latency messaging.</li><li>Optimized ERP system workflows by debugging critical issues, significantly improving application stability and performance.</li><li>Implemented secure authentication and data visualization modules for a scalable Learning Management System (LMS).</li></ul>	
<b>Microdegree</b> - Python Full-Stack Internship	(07/2024 - 10/2024)
<ul style="list-style-type: none"><li>Completed training in Python, Django, and Frontend technologies (JavaScript, HTML, CSS, Bootstrap), with hands-on experience in Netlify deployment and API testing using Postman.</li><li>Developed a Tech Store Website and a One-Stop Bank Application using the Python Django framework, implementing user authentication, database integration, and responsive UI.</li><li>Deployed applications on PythonAnywhere, gaining practical knowledge of web hosting, deployment workflows, and debugging in live environments.</li></ul>	
<b>Debug Deployment Technologies</b> - Web development Intern	(02/2024 - 03/2024)
<ul style="list-style-type: none"><li>Built and hosted multiple web projects including a To-Do List App, Personal Portfolio, and Responsive Clone Website using HTML, CSS, Bootstrap, and JavaScript, focusing on clean UI and responsive design.</li><li>Deployed projects online, making them accessible and responsive across devices.</li><li>Awarded for Excellence in Internship Performance with a Certificate of Appreciation recognizing technical skills and professional contributions.</li></ul>	
<b>Unify CX</b> - Graduate Engineer Trainee	(11/2023 - 1/2024)
<ul style="list-style-type: none"><li>Provided level-one technical support for web hosting issues, efficiently handling multiple customer chats simultaneously and ensuring timely issue resolution.</li><li>Troubleshoot and escalated technical problems, maintaining accurate and detailed records using CRM tools.</li><li>Demonstrated strong problem-solving and communication skills, consistently delivering a positive and professional customer experience in a fast-paced environment.</li></ul>	

**Nayepankh Foundation - Graphic Design Intern**

(9/2023 - 12/2023)

- Designed and developed responsive websites using front-end frameworks, ensuring optimal performance and user experience across devices. Additionally, created custom templates and visual assets using Canva and Figma.

**GaoTEK - Internship**

(9/2023 - 12/2023)

- Executed product uploads and catalog management using the WordPress framework, ensuring accuracy and consistency.
- Designed and developed WordPress websites, implementing custom layouts and user-friendly interfaces.
- Troubleshooted and resolved technical issues on WordPress sites, improving site functionality and performance.

**PROJECTS**

---

**Real-Time Chat Application**

- Developed a full-stack real-time chat application using the MERN stack (MongoDB, Express.js, React.js, Node.js), enabling seamless messaging between multiple users.
- Implemented user authentication and registration, ensuring secure access and personalized chat sessions, integrated Socket.IO to enable real-time messaging, including instant message delivery,
- Used MongoDB for message persistence, allowing users to view chat history across sessions.
- Built a responsive and interactive front-end using React.js, Tailwind CSS, and React Hooks (useState, useEffect) to ensure smooth UX on desktop and mobile devices.

**One-Stop Bank App**

- Developed a secure full-stack banking application using Django for the back-end and HTML5, CSS3, JavaScript, and Bootstrap for the front-end. Deployed the application on PythonAnywhere, ensuring accessibility and reliability.
- Implemented core banking features including account management, fund transfers, bill payments, and transaction history.
- Integrated user authentication and authorization to ensure data security and privacy.
- Optimized the application for responsive design and cross-browser compatibility, delivering seamless experience across devices.

**Tech-store website**

- Developed and hosted a full-stack e-commerce platform on PythonAnywhere using Django, Python, JavaScript, HTML5, CSS3, and Bootstrap. Enabled product uploads, user account creation, and secure authentication.
- Designed an intuitive user interface with responsive design for seamless navigation. Utilized dynamic front-end technologies to enhance user interaction and engagement.

**Music Website**

- Developed a full-stack music streaming web application using PHP, MySQL, HTML5, CSS3, and JavaScript, enabling users to browse, play, and manage music tracks online.
- Implemented core features including user authentication, music upload, search functionality, and playlist management, ensuring a seamless user experience.
- Designed a responsive front-end with custom CSS and JavaScript, providing an intuitive interface across devices.
- Integrated MySQL for database management, ensuring efficient storage and retrieval of user data and music files.

**Image Captioning**

- Designed and deployed a deep learning model using CNN-RNN architecture with Inception-V3 for image feature extraction and LSTM for generating descriptions.
- Trained the model on the Flickr8k dataset and deployed it via Streamlit for real-time image captioning, achieving high accuracy and efficiency in generating descriptive captions for images.

**CERTIFICATIONS**

---

- **Foundations: Data, Data, Everywhere** - Coursera
- **Introduction to Cybersecurity Tools & Cyberattack** - Coursera
- **AWS Fundamentals: Addressing Security Risk** - Coursera
- **Getting Started with AWS Machine Learning** - Coursera
- **Programming for Everybody (Getting Started with Python)** - Coursera
- **Natural Language Processing** - Coursera
- **CyberOps Associate** - Cisco
- **Introduction to Cybersecurity** - Cisco
- **RPA Developer Foundation** - UiPath
- **AI for India** - Guvi
- **MySQL, HTML, CSS, Javascript** - Microdegree
